

YEAR 4

Friday 14th November

Homework Tasks (Year 4):

- **Maths** : Please complete – and mark - the ‘ Subtraction game’ tasks on the next pages of this document and record your responses in your homework jotter book. (If you would like some squared paper to help you set out your calculations, please collect some from school or print the squared sheet below)

***Please place your homework books in the homework box by
Wednesday 19th November***

- **Spelling**: A spelling test, on **Autumn Term 2 -Week 2 purple words** will take place next **Thursday** (see the separate spelling sheet for this term – it is split into weeks and you will be instructed which week we are currently learning). Don’t forget you can use spelling shed to help you practise – logins are in the front of your homework books.
- **Times Tables**: Please complete - and mark- Autumn Term: Workout 8 p16-17 of your CGP 10-minute weekly workout book and your weekly test on the **9x** table will be next **Friday**. Remember you can also practise your times tables using your TTRockstars login.
- **Reading**: Please read for 45mins throughout the week.

Subtraction Game

Show your working

Subtraction Four-in-a-Row Game

This game can be played on your own or with a partner.

You will need:

- four-in-a-row game card (included in this resource)
- two different coloured pencils
- squared paper (included in this resource)
- dice

Preparation:

If you want to play this game again and again, you can laminate the game card and use dry wipe marker pens. You can print out more squared paper to use.

Twinkl Tip

Make sure you line up the values of the digits correctly in your additions.

How to play:

1 If you're playing with a partner, choose which colour pencil you will use. Place the game card between you. Each person will need a sheet of squared paper.

2 Each person rolls the dice. The person with the highest number starts.

3 Player 1 rolls the dice twice: one for each set of numbers. Then, they use the squared paper to subtract the smaller number from the larger number and colour in the answer on the grid.

4 Player 2 does the same. If the answer is already coloured in on the grid, play moves to the next player.

5 Play continues until someone colours in four in a row, either vertically, horizontally or diagonally. There might not even be a winner, in which case play until all the squares are coloured in and see who has the longest string of coloured squares. Good luck!
