Worship This Week

This week, the children explored the idea that life is a journey — one filled with choices, challenges, and opportunities to show kindness. We talked about how every act of kindness, no matter how small, can help us and others travel more confidently along that path. Using stories and reflection, pupils thought about how being thoughtful, patient, and caring can make someone's day brighter and make our shared journey smoother.

Ofsted Report

We are delighted to tell you that our Ofsted report is now live and available for people to read. We are proud of our achievements within the new Ofsted framework and will continue to move forward with our developments over the coming months.

Data Collection Forms

Just a reminder that your completed data collection forms need to be returned to the office early next week. Many thanks to those that have already returned them.

Reading

We all know how important reading is; it stimulates the brain, expands our vocabulary whilst also reduces stress and improves sleep. We encourage our children to read from an early age. As a school we use Read, Write Inc. to support our reading using phonics which teaches the building blocks for reading words. Once children are proficient in decoding words, children move on to a wide variety of real books, both fiction and non-fiction. Our school website has recommended reads and we are in the process of reviewing this so that our children can access a range of different texts.

Parental support is crucial in Early Years and Key Stage 1 and we would recommend that this is completed little and often. For older children, support with reading, comprehension and word meaning is equally important and all primary school children are never too old for a bedtime story!
